My marriage was planned in Feb'24 and I had my ZSR done in Dec'23 After watching this video I can say it was the best decision I made, first 3 weeks were difficult after ZSR but after that recovery progressed with rocket speed Till marriage I was fully recovered, I started my marriage life nicely, I enjoyed my honeymoon and my wife got happy, everything was good
Just one word I have to say after this video..... Thank you so much Dr. Govinda

I am absolutely delighted to have been circumcised using this latest procedure. The cut is neat and esthetically great. No stitching marks . Tight cut for maximum glans exposure.

Patients REVIEW

ROHAN SHARMA

Did the zsr from dr.Govinda. It's been 12 days now. Most of the ring part has been Detached. No pain minimum bleeding. Zsr is good option. But sensitivity is major concern here. Glance is very sensitive so far so waiting for couple days
